Residence Hall Preferences

The Life's Village Retreat residential community expands student's learning experience beyond the classroom. Students will have the opportunity to make new friends, develop an appreciation and respect for differences and learn important skills that will help personal and professional relationships through college and beyond. Life's Village Retreat is primarily housing for our graduate and Doctor of Chiropractic students.

The Commons is Life University's newest residence hall. The Commons is designed with LIFE's newest, and youngest students in mind. Encouraging community integration and social collaboration, The Commons at Life University is a physical example of a living learning community. Equipped with residence life staff and fun programs, The Commons is a great place to begin your college career at Life University. The Commons is a coed by door residence hall (male rooms next to female rooms). Additionally, the bathrooms are individual-use bathrooms on each floor.

Our office will do our best to honor your preferences but assignments are provided on a first-come, first-serve basis and we may not be able to accommodate your housing preferences.
